

Flexiti Financial

Flexiti has reimagined point-of-sale (POS) consumer financing to drive sales for retailers in-store and online, becoming one of Canada's leading private label credit card issuers. Through our award-winning platform, we deliver a POS financing experience across any device that is customer-centric, simple and intuitive. Without the need to integrate into existing POS systems, retail partners can easily offer the same fast and paperless financing solution across all retail locations and sales channels to increase revenue and build loyalty through repeat purchases. Flexiti's joint venture with Globalive Technology demonstrates its commitment to innovation in the payments space through the development of solutions leveraging artificial intelligence and blockchain technology. With high approval rates, innovative products and services, flexible promotional offers and a partnership-first approach, Flexiti is helping people improve their lives through better financing. Senior Financial Analyst

Flexiti Financial is looking for a Senior Financial Analyst to join its Finance team. This is a unique opportunity to join an established Fintech in downtown Toronto. Supporting the Finance Manager, the Senior Financial Analyst will assist with the creation, maintenance, and development of the following initiatives:

Responsibilities

Budgeting and Forecasts

- Collaborate with functional leaders to participate in the preparation of annual plan and quarterly forecasts. Coordinate the process for various budget and forecast exercises by translating business projections into meaningful figures, including data processing, modelling, and reporting
- Manage a rolling forecast that gathers inputs from the regions and is benchmarked against relevant comparables, but is not bound by system limitations

Internal Management Reporting

- Monthly detailed review, analysis, and progress reporting on the core business units of the practice
- Monitor and track financial results against operational and strategic objectives as well as historical performance
- Analyze variances from forecasted plan, report results, and recommend solutions
- Create and manage executive friendly financial reporting for period end, forecasts, and plans that form the basis of decision making

Investor Relations, Capital Raising, and M&A

- Assist with preparation of board/shareholder presentations
- Assist with management of communications between corporate management and external investors and lenders
- Support future capital raises for new business opportunities
- Create pitch decks and other ad hoc presentations
- Valuation modelling as required

Business Cases

- Modelling/decision support for key growth opportunities and strategic initiatives

- Prepare and present insights based on analyses, key metrics trending, and quantified risks and opportunities and provide strategic input to support effective decision making

Qualifications

- University degree holder in business, finance, accounting or related disciplines
- CPA/CA or MBA designation
- Strong background in complex financial modelling (advanced Microsoft Excel skills)
- Experience with budgeting/variance analysis, case modelling, and valuations
- Experience preparing MD&As considered an asset
- Background in PowerPoint (e.g., investor decks)
- Experience working with clients in the financial services, retail credit or credit card industries not required but also considered an asset
- Strong verbal and written communication skills
- Self-starter with very strong attention to detail

What We Offer

Below are just a few reasons why people love working here:

- An opportunity to be a part of an award winning and fast growing company
- An innovative culture that promotes autonomy and flexibility
- A dynamic team and working environment that provides ongoing support
- Frequent company wide social events and a fully stocked kitchen
- Competitive compensation package commensurate to experience
