

Flexiti Argentina (Rosario-Sta Fe) is looking for a **Senior Database Developer** to join the team!

Flexiti is looking for a resourceful person who will be responsible for end-to-end database design, development, testing, review, and implementation of code into existing databases for all levels of the Software Development Lifecycle.

Responsibilities

- Analyze business, IT and data requirements, design the best possible data model and ETL processes, and implement data solutions (OLTP & OLAP) accordingly.
- Develop and maintain extract, transform and load (ETL) jobs within an evolving enterprise data warehouse
- Develop Advanced T-SQL such as temporal tables, PIVOTs, recursive table expressions, dynamic SQL as well as high complexity, fast performing SELECT queries, T-SQL procedures, functions, triggers, views, jobs, scripts to support data operations and DW users.
- Optimize SQL statements executed by end users/ETL code as required; Test and troubleshoot ETL job functionality, validate database objects and structures through use of SQL and other means
- Collaborates with analytics and business teams to improve data models that feed business intelligence tools
- Assist DBAs in managing indexes, statistics, query plans, alerts, database activity and overall performance activity
- Create and monitor fault tolerant database jobs across hundreds of integration points
- Identify root causes of data integrity issues and ability to eliminate them

Qualifications

- 4 years of experience in Database developer
- Knowledge of MSSQL, MongoDB, SOAP/XML, REST/JSON

- Expert understanding of ETL and ETL and hands on experience with SSIS, SSRS (development and some admin experience)
- Hands on Experience with data modeling (OLTP and OLAP) using Erwin, Visio or similar tools
- Experience in all aspects of SDLC
- Experience with version control software (ideally bitbucket)
- Working knowledge of AWS Cloud (RDS)
- Java and python experience are an asset
- Familiarity with ad-hoc file transfer solution/s, such as FTP, HTTP
- Experience with modeling Power BI data modeling, designing dashboards is desirable
- Financial services experience is an asset
- Upper-intermediate or **Advanced written and oral English communication skills (mandatory)**

Benefits at the company

- ✓ Competitive salary in CAD
- ✓ Health plan for all the family (OSDE)
- ✓ Gym allowance
