

Flexiti Argentina (Rosario-Sta Fe –ON-SITE job) is looking for a **Sr. Fullstack Platform Engineer** to join the team!

Requirements

Technical Background

Mandatory

- Must have 5+ years of experience in web development
- Must have advanced knowledge of web standards and practices (HTTP, HTML, XML, CSS)
- Must be a passionate coder and have advanced JavaScript knowledge (ES6, ES2017, TypeScript is a plus)
- Must have experience in one of the major Web UI frameworks (React, Angular or Vue)
- Must have experience in .NET Core or PHP backend development
- Must have experience in unit testing (TDD a big plus)

Important

- If your main backend language is PHP, knowledge of one of Zend, Laravel or Symfony is desired
- If your main backend language is C#, knowledge of ASP.NET Core and EF Core is desired
- Should be familiar with Agile methodologies (Scrum / Kanban)
- Should be familiar with design patterns (SOLID, DDD, CQRS)
- Should be familiar with testing/mockng frameworks (xUnit, NUnit, Moq, Rhino Mocks)

Nice to have

- Experience with at least one e-commerce platform (Magento 2, WooCommerce, Shopify) is a plus
- Experience in SQL Server and Transact-SQL is a plus
- Experience in document databases (MongoDB and mongoose) is a plus
- Experience with modern application architecture, microservices and message brokering is a plus
- Experience using CI/CD tools (Jenkins, TeamCity, Azure DevOps) is a plus
- PowerShell and bash scripting ability are a plus

English Language

- Must be able to communicate technical knowledge in written English without assistance (advanced)
- Must be able to produce technical documentation in English (advanced)
- Must be able to participate in English audio/video calls (intermediate to advanced)

Soft skills

- Business innovation activist. Constantly looking for solutions to meet business goals in the long run
- Self-taught. Ability to research and learn new technologies without supervision
- Team player. Ability to build knowledge on his/her own and share it with the team
- Resilient. Capable of adapting to business change and technology change, and evolving with those changes

Benefits at the company

- Competitive salary (in CAD dollars paid in ARS)
- Health plan for all the family (OSDE)
- Gym allowance
- Daily refreshments at the office (yogurt with granola, fruits, cookies, coffee espresso, etc)

- Lunch for all employees on Fridays!
- 14 labor days of vacations (almost 3 weeks)
- Social events!

JOIN THE TEAM 😊!
